The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/574,329	<b>Applicant(s)</b> GOLDNER, ERIC L.	
	<b>Examiner</b> ERIN D. CHIEM	<b>Art Unit</b> 2883	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4, 6-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Maron et al. (US 5,892,860).

In terms of claim 4, 9 and 10, Maron discloses a system for detecting acoustic signals in the producing area of a well bore comprising an optical fiber having a core and a cladding layer (Fig. 4, '35' '24'), at least one periodic refractive index perturbation (Bragg gratings 46) formed in the optical fiber at a location of the fiber to be deployed in the producing area of a well, the Bragg gratings are responsive to acoustic signals (col. 2, lines 53-57); an optical interrogator (25) of Fig. 1, a processor programmed to analyze the reflected light (18); the means which are responsive to the processor for reporting is the system including element 25, fiber with core and cladding, Bragg gratings, and the controller 18. Regarding the "reporting the presence of sand" is considered intended use, which is not given patentable weight since there is no structural distinction from the prior art of Maron.

Claims 6 and 8, the Bragg gratings formed along the length of the fiber form an acoustic sensor (Fig. 2).

Claim 7, the sensor is mounted on an external side of a well casing (col. 5, lines 5-7).

Claims 11-13 are not given patentable weight since the limitations are claiming intended use without further narrowing the claimed subject matter with structural distinction.

***Response to Arguments***

Applicant's arguments with respect to claims 4-7 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
